<b>Tip or Complaint:</b>		Maker's Mark <b>distillery</b> has his black mildew substance that collects on everything and I do mean everything and contacting them is proved pointless and I don't see how something like that can be healthy and the more warehouses they build the faster and thicker it accumulates

Subject:	RE: Regional Tip and/or Complaint - Kentucky (263324)
Message:	The U. S. Environmental Protection Agency (EPA) has received your complaint concerning suspected mold. We at EPA are concerned both about mold, public health and environmental problems that mold may cause. Because all mold problems are moisture problems, mold problems cannot be fixed until the moisture problem is solved. You can find more information about molds and moisture at <a href="http://www.epa.gov/iaq">www.epa.gov/iaq</a> . Unfortunately, there are no federal regulations for mold and therefore EPA cannot conduct an assessment nor initiate any actions to address the suspected mold. For mold concerns in Kentucky, it is recommended that you register your concerns with Sarah Wilhoite, Environmental Health Inspector, Kentucky Cabinet for Health and Family Services' Environmental Management Branch at (502) 564-4856 for further guidance on what to do regarding your concerns of suspected mold. Thank you for reporting your concerns to EPA's online complaint system. We hope that this email is helpful to you in finding a solution to the concerns that you have described. Sincerely, Reginald S. Barrino Policy, Oversight & Liaison Office Enforcement & Compliance Assurance Division U.S. EPA Region 4 61 Forsyth St. SW / Atlanta, GA 30303 404.562.9635 / <a href="mailto:barrino.reginald@epa.gov">barrino.reginald@epa.gov</a>
